

# 10/100M SFP Module Fast Ethernet Media Converter

## 【Features】

- Highly integrated switching core designed enhanced specifically for fiber converter, low power consumption
- Compliant IEEE802.3/u 10Base-T and 100Base-Tx/Fx standard
- Support IEEE802.3x full-duplex and Back Pressure half-duplex flow control
- Support store-and-forward switching mode, Provides wire-speed-forward
- Support straight-through mode, low time-lapse
- Support FEF optical link-loss alarm & remote diagnostic functions
- Support Link-Loss alarm & diagnostic functions
- Support Auto MDIX crossover
- SFP series modules support hot-swappable
- Compliant TS-1000 standard, support remote management, deployed at terminal and used in pairs with slide-in-modules FT-10/100-A+ SFP series.

FT-10/100-A+
